Harnessing Solar Energy

Embracing sustainability and forward-thinking, the school's solar panel of 100 KW not only helps in reducing the energy cost but is also teaching students about renewable energy, and contributing towards a greener future for the school and the wider community.

**Believe in yourself and in your dream
Though impossible things may seem
Someday, somehow you'll get through
To the goal you have in view
Mountains fall and seas divide
Before the one who in his stride
Takes a hard road day by day
Sweeping obstacles away
For the power to achieve, lies within you,
And with every step, your dreams come true.**
